## THE ROYAL OAK

**We care** about our **planet** and the **people** we share it with. As a country **pub**, a sustainable environment is essential to a successful business.

Here are a few things we do;

**Belu filtered water.** We charge £2 for unlimited still and sparkling water for your table. £1 of this is donated to Belu, which gives 100% of its profits to wateraid.

Our core range of gin comes from **Keepers**. Keeping the bees in business, Keepers are avid promoters of 'save the bees' campaign and a part of the Bee Farmers Association. After all they say it was the bees that coloured the Cotswold stone.

Oh and it's not just the gin, have an Affogato, help save the bees.

Our **Peruvian coffee** is purchased directly, which makes even more ethical than fair trade!

The soaps, sanitiser and products in our rooms are a combination of both Keepers and **BeeKind**.

This is what they have to say;

*"Beekind to yourself by not using products with parabens, phthalates or artificial colours. Beekind to your neighbours, animals, waiters and waitresses. Most importantly, Beekind to the environment so future generations can enjoy our planet's breath taking beauty."*
